## CPP 0110 – PANEL DEGREASER

### DESCRIPTION

PANEL WIPE is a blend of aliphatic hydrocarbons and other solvents. It helps with problems such as poor adhesion, slow drying and cratering, which are caused by poor degreasing and cleaning.

PANEL WIPE has been formulated to quickly remove grease, oils, waxes and other contaminants from surfaces to be painted.

### APPLICATION

Always degrease before and after sanding or flattening operations.

Apply PANEL WIPE freely with clean cloths, changing cloths often to prevent transfer of contamination from one area to another. Wipe dry with a clean cloth.

WARNING - Certain paper cloths are dissolved by solvents. Check before use.

### FLASH POINT

Below 22°C

### STORAGE

Correctly stored material, in firmly closed original containers, has a shelf-life of over 1 year. Contents of opened containers should be used up quickly. Always replace cap immediately after use.

### HEALTH & SAFETY

Please refer to relevant Health and Safety Data Sheet, reference no. HSD 0110.

### NOTE

This data relates only to the product designated herein and does not apply to use in combination with any other materials or in any other process.

The data is not to be considered as a warranty or quality specification and we assume no liability in connection with its use.

Our product range is under continuous development and therefore products and specifications are subject to change without notice.

This product is for professional use only.

All trademarks, registered trademarks, brands and product names respected.
